

Administrative evaluations will be held to assist supervisors in developing and strengthening their abilities through an assessment of their strengths and weaknesses. A formal evaluation of each administrator will be made by the superintendent or his or her designee using evaluation procedures developed by the superintendent and approved by the board. Evaluations will take place annually for certificated administrators prior to February 1 of each school year.

Evaluations will be made in writing and given to each administrator. Copies of the evaluations may be made available, upon request, for board members prior to the meeting in which the administrators will be reviewed by the board.

Evaluations will not be disclosed to the public with the administrators' written consent.
