This board has the authority and responsibility to adopt and carry on a total educational program that strives to meet the objectives established in its philosophy.

The curriculum for the schools within this district will be cooperatively developed by school officials and community representatives and implemented by the professional staff under the direction of the principals and superintendent. The curriculum will include the total program of instruction and related activities provided to students. Each area of curriculum will be written, reviewed and revised on a five year cycle.

In grades K-8 the curriculum will be aligned to level testing. When available, level testing will also be used in the High School and curriculum developed accordingly.

All statutory and State Board of Education requirements related to curriculum offerings will be met.

Refer to the Melba School District curriculum plan.
