

All students in this district will develop a parent-approved student learning plan by the end of the eighth grade. Students' learning plans will set forth their plans for high school and post-high school options. The purpose of a learning plan is to outline a course of study and learning activities which allow students to become contributing members of society.

Each learning plan will be developed by a student and his or her parent or guardian with advice and recommendation from appropriate school personnel. Each learning plan will be reviewed annually and may be revised at any time.

Each learning plan will have, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting this district's graduation requirements and exiting standards.

This district will make a good faith effort to notify the parent/guardian of each student, grades eight through twelve (8-12), of the responsibility for the development and approval of the learning plan. A learning plan will no be required if the parent/guardian requests, in writing, that no learning plan be developed.
